

reviewers or draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these courts rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Forest Service

Loon Mountain Ski Area Improvements and Expansion

AGENCY: Forest Service, USDA.

ACTION: Cancellation of a supplement to a final environmental impact statement.

SUMMARY: On August 4, 1998, a Notice of Intent (NOI) to prepare a Supplement to the Loon Mountain Ski Area South Mountain Expansion Project Final Environmental Impact Statement (FEIS) for the White Mountain National Forest was published in the **Federal Register**

(Volume 63, Number 149) pages 41541-41543. This notice is being withdrawn because the Forest service will prepare an environmental impact statement (EIS) rather than a supplement to the FEIS to disclose the environmental effects of Loon Mountain Recreation Corporation's proposal to develop and expand recreational facilities at Loon Mountain Ski Resort. This decision is based on changes to the original purpose and need for the Proposed Action since the FEIS was prepared. The Forest Service NOI to prepare a supplemental is hereby rescinded.
